

BANNER FLAGS

TEMPLATE

Material types available

- Polyester
- Premium Strength Polyester

Material weights available

- 110gsm
- 120gsm

BLEED AREA

The bleed area extends out 3mm from the edge of your finished artwork. All images or colours that are required to print to the edge of the document should be extended to avoid the chance of any white lines during the print finishing process.

SAFETY AREA

Avoid putting any text or important information or imagery that needs to be seen 3mm from the edge of the artwork as content placed within this area will run very close to the edge and maybe cut off during the print finishing process.

VIEWABLE AREA

This is the finished size of your document. Anything placed outside this area will not be visible after the construction of the flag.

REINFORCEMENT AREA

This area is needed to reinforce the flag for durability and to apply banner attachments. All images or colours that are required to print to the edge of the document should be extended to avoid the chance of any white lines during the print finishing process.

HOW TO CREATE YOUR PRINT READY PDF

Please use the following instructions to create your PDF.

- File > Export
- Format > Adobe PDF >
- Adobes PDF Preset > PDF/X-1a:2001 >
- Marks and Bleed >
- Select "crop marks"
- Set all "bleeds" to 3mm
