BLEED AREA
The bleed area extends out from the edge of your finished artwork. All images or colours that are required to print to the edge of the document should be extended to avoid the chance of any white lines during the print finishing process.

SAFETY AREA
Avoid putting any text or important information down from the edge of the document as content placed within this area will be very close to the edge and might cut off during the print finishing process.

TRIM AREA
This is the finished size of your document. Anything placed outside this area will be trimmed off during the print finishing process.
