Variable mm

The bleed area extends out 3mm from the edge of your finished artwork. All images or colours that are required to print to the edge of the document should be extended to avoid any sizing issues created during the print finishing process.

Avoid putting any text or important information 3mm from the edge of the document as content placed within this area will run very close to the edge and maybe cut off during the print finishing process.

----- This is the finished size of your document. Anything placed outside this area will be trimmed off during the print finishing process.

Please use the following instructions to create your PDF.

File > Export
Format > Adobe PDF >
Adobe PDF Preset > PDF/X-1a:2001 >
Marks and Bleed >
Select "crop marks"
Set all "bleeds" to 3mm
